COMMENTS FROM THE TOWN MANAGER'S OFFICE

The laying of the Evergreen Road Sewer was started on Monday morning. This project consists of the laying of 950 feet of 6 inch cement pipe and construction of three manholes, using cement block. This will provide a public sewer for seven homes on the street. At the time of the initial request for a public sewer, six of the seven property owners indicated that they would connect to the sewer.

A well point has been driven on the lot owned by Herman Bennett and located at the rear of the West Bethel school. A sample of the water has been taken and forwarded to the Division of Sanitary Engineering for analysis.

Attention has been called to the condition of the town cemetery on Bird Hill. It has been several years since any work was done in the cemetery, as a result there is a good growth of bushes started. Present plans are to have the bushes removed during the current week.

Word has been received from the Maine Tree Service that they will start the trimming of elm trees next week under the Dutch Elm Disease program. This is entirely a preventive program by which the dead wood is removed from otherwise thrifty trees. There are also several elms that are dying and have already lost over 50% of the green wood which will be removed.

Sincerely,
Harold L. Bean

LESLIE H. COBURN

Leslie H. Coburn died Monday at the VA Hospital, Togus, where he had been a patient two months.

He was born in Bethel July 13, 1898, the son of Howard and Lillian Stearns Coburn. He has been a lifelong resident of this town, where he and his wife have conducted a florist shop since 1950.

Mr. Coburn was a member of Mundt-Allen Post, American Legion, serving as commander for two years. During World War II he served as captain of Maine State Guard Reserves. He was a member of Pleasant Valley Grange, West Bethel.

Surviving besides his widow, the former Grace Fuller, are a daughter, Mrs. Lillian Mason, East Poland; an adopted son, Michael; a sister, Mrs. Robert Blake; and a step-mother, Mrs. Howard Coburn, all of Bethel.

Private funeral services were held Wednesday forenoon at the Greenleaf funeral home, the Rev. Evans Wilson officiating. Interment was in Woodland Cemetery.

"The Captain," as Leslie was affectionately called by his family and neighbors, was a man of few words and many friends. His honesty and integrity were unassailable. Unless one wanted the truth they learned not to ask his opinion.

He was one of a group of Bethel's finest young men who enlisted early in the First World War. He saw grim service in the trenches in the European area, where he achieved a fine record.

The pursuits of Peace were more to his liking and he was an enthusiastic gardener. In addition to his excellent vegetable garden he lent a valuable hand to his wife in establishing and maintaining their successful Flower Shop on Paradise.

Always a home and family man, his interests and affections were centered in his wife; his daughter, a registered nurse of whom he was justly proud; and the small son whose companionship around the property was constant. We shall miss seeing this sturdy man busily at work in his gardens.

Why we built two cars for 1960 . . .
as different as night and day

On October 2—for the first time in Chevrolet's 49-year history—you will be able to walk into your dealer's showroom and see two totally different kinds of cars. ■ One is the conventional 1960 Chevrolet, brand new in appearance and more beautifully refined and luxurious than you can imagine. ■ The other is unlike any car we or anybody else ever built—the revolutionary Corvair, with the engine in the rear where it belongs in a compact car. ■ We'd like to tell you why we built two such different cars, how we built them—and for whom we built them.

Why two kinds of cars? Because America itself has been going through some big changes in the past few years. Our cities have been straining at their seams. Traffic is jam-packed. Parking space is at a premium.

And our suburbs have spread like wildfire. People are living farther from their work, driving more miles on crowded streets. There is new leisure time—but more things to do. There's a new standard of living—and more need for two cars in the family garage.

In short, America's automobile needs have become so complex that no one kind of car can satisfy them completely. That is why we at Chevrolet, keeping tab on these trends, have had a revolutionary compact car in the planning stages for more than nine years.

Thus, when we decided three years ago to prepare for production of such a car we were ready to build it the way it should be built. There was no need for a hasty "crash" program that would create only a sawed-off version of a conventional car.

That is why the two cars you will see in your dealer's showroom October 2 will be two entirely different kinds of cars. One is the conventional '60 Chevrolet—brand new in beauty, with new space inside, new spirit under the hood, a new

feeling of sumptuousness and luxury never before attained by any car in its field. There is great V8 power linked with new thrift, plus Chevrolet's superb 6-cylinder engine. It is a traditional car that comes even closer to perfection—in silence, in room, in ease of control, in velvety ride—than any other car we have ever made.

The other is the Corvair, a compact car that is astonishingly different from anything ever built in this country. It has to be—because this is a six-passenger compact car, with a really remarkable performance . . . a car designed specifically to American standards of comfort, to American traffic needs.

The engine is in the rear. Among the basic advantages resulting from this engine location are better traction on a compact 108-inch wheelbase and a practically flat floor. But to be placed in the rear, the engine had to be ultra light and ultra short. So Corvair's engine is totally new—mostly aluminum and air cooled; it weighs about 40 per cent less than conventional engines. It is a "flat" horizontally opposed six—so it is only three cylinders long . . . and that leaves a lot more room for passengers.

Another weight saving: like modern airplanes, the Corvair has no frame; the body-shell supplies it great struc-

tural strength . . . it's a welded unit that is virtually rattle-free.

The ride is fantastic. But to get it we had to design independent suspension at every wheel; conventional springing would give a compact car a choppy ride. Right now we'll make one prediction: no other U.S. compact car will ride so comfortably, hold the road so firmly and handle so beautifully.

Now there are two kinds of cars from Chevrolet—because it takes two kinds of cars to serve America's needs today. If you love luxury—the utmost in luxury—and if you want generous interior space, breath-taking performance, automatic drives and power assists—then the conventional '60 Chevrolet may be your choice.

If easy parking, traffic agility and utmost economy are high on your list—then you should seriously consider the Corvair. But the best thing to do is to look these two new cars over at your Chevrolet dealer's . . . take them out for a drive. It may be that the only logical choice for your family between two cars like this is—both. They make a perfect pair.

MESSINGER - WILSON

Lt. and Mrs. Paul Messinger

On Sept. 12 the Methodist Church in Bethel was the scene of the afternoon wedding of Miss Laura Minnie Wilson, daughter of Rev. and Mrs. Evans L. Wilson of Madison, formerly of Bethel, and Lt. Paul Messinger, son of Mr. and Mrs. Laurence Messinger of Los Angeles, Calif. The ceremony was performed by the Rev. Elwin L. Wilson of Bangor, uncle of the bride, assisted by the Rev. Richard Hamilton, pastor of the church. The double ring service was used. Wedding music was rendered by the organist, Mrs. Norman Dock, and the soloist, Mrs. Beverly Melville, who sang "Because," "This Is My Task," and "The Lord's Prayer." The church was decorated with bouquets of white chrysanthemums and garden flowers.

The bride, given in marriage by her father and mother, wore a bridal dress of her own making, its floor length skirt of white tulle falling from a lace bodice, the elbow length veil fastened to a queen's crown of seed pearls. Her bouquet was shattered white carnations and pink rosebuds carried on a white ribbon.

Mrs. Nancy Nicola, cousin of the bride, was matron of honor, wearing a street length dress of aqua nylon over net with matching hat and carried a colonial bouquet of yellow roses.

Lt. Harold Poindexter of Portsmouth, N. H., was best man and Capt. Donald Grahmann of Kittery, and Malvern Wilson, brother of the bride, served as ushers.

Mrs. Wilson, mother of the bride, chose an afternoon dress of royal blue for her daughter's wedding.

Following the ceremony a reception was held in the church dining room. The guest book was in charge of Mrs. Gloria Wilson, sister-in-law of the bride. The gift table was presided over by Carolyn, Barbara, and Evelyn Sprague. Mrs. Myrtle Latham was in charge of the refreshment table. Mrs. Elizabeth Eustis, a college friend, served punch and cut the wedding cake.

After a wedding trip to an unannounced destination the couple will reside temporarily in Portsmouth, N. H.

BRADLEY - LARY

Miss Carline Merna Lary became the bride of Joseph Wright Bradley, Tuesday evening, Sept. 15. The Rev. Kenneth V. Gray, pastor of the South Paris First Congregational church officiated at the ceremony which was held in the First Baptist Church, Paris Hill. Baskets of white studio and condolabro were used to decorate the church. Mrs. Beverly Melville of Locke Mills was the vocalist and Robert T. Smith of South Paris was organist.

The bride is the daughter of Mr. and Mrs. Edwin E. Lary of Paris, and the bridegroom is the son of Mr. and Mrs. Joseph Bradley of Warrensburg, Mo.

The bride wore a floor-length gown of white lace over tulle, with a scoop neckline trimmed with satin and a boat-neck skirt. A crown of white lace held her illusion veil and she carried a white gold-edged ribbon centered with white carnations touched with pink, the bride being a gift from the bridegroom.

Miss Judith Gray of South Paris was maid of honor. Douglas Hodgson of Bangor was the best man and Kenneth C. Cannon and Merwin C. Lary.

TORSION-SPRING
SUSPENSION
THAT GIVES ASTONISHING NEW
SHOCKPROOF
ACTION !!!!!Chevy's done the next best thing to
paving every road in America!

First they threw out the front axle and put in torsion-spring independent suspension. Then they built wide-base coil rear springs into most light-duty models, variable-rate leaf springs into heavies. That made it a ride you have to feel to believe. A ride that lets you move faster to get more work done in a day's time.

Brawlier bulldozer build!

Frames are stronger, cabs 67% more rigid. Front wheels and tires are precision-balanced. And that new suspension cushions jars and road shock that used to spell slow death for the truck's body and sheet metal.

More comfortable cabs!

Easier to hop in and out of too. Many models are a whole 7 inches lower outside. Yet there's more head room inside, plus more width for shoulders and hips. More real comfort!

Big in the power department!

With the industry's most advanced gas-saving 6's. With high-torque Workmaster V8 performance in heavyweights. With new 6-cylinder or V8 power available in L.C.F.'s.

More models than ever!

New 4-wheel-drive models and tandems and high-styled Suburban Carryalls. It's the handsomest, hardest working Chevy fleet ever to report for duty. See your dealer soon for a ride!
